DEVELOPING CAPACITIES IN MIGRATION MANAGEMENT

International Organization for Migration (IOM)
The UN Migration Agency

Migration and population mobility increase the risk of infectious diseases

You can lead a healthy life!

Early diagnostics are crucially important for timely detection and treatment!

Timely diagnosis and treatment is key to your health!

Be aware of your health status – take a free rapid test for HIV and screening for Tuberculosis!

Universal access to TB and HIV prevention, care, treatment and support includes migrants and refugees living in our communities!

Let's unite to address the priority health needs of migrants, regardless of migration and legal statuses!

You can start the treatment, if necessary!

CONTRIBUTE
AND
COOPERATE
TO

prevent and bring to zero new TB and HIV infections!
fight TB- and HIV-related discrimination!
bring to zero TB- and AIDS-related deaths!
